DISMERO  
MADE IN ITALY

As realism and disillusionment spread, it gives way to mature realistic fashion styles. Casual overcut silhouettes and a new color palette give the looks a charming contemporary touch.

It's an elegant season, and what could be more formal than special occasion wear? Classic refinement gives way to a more sophisticated couture. Simplistic elegance is the most important theme of the season; it is the new couture.

Minimalistic styles of effortless sophistication show a desire for luxury and elegance. The trend toward aristocratic looks are evident in craftsmanship and high quality materials. Blazers are designed in a modern form, with corresponding detailings.

Denim is once again a star of the collection with very feminine applications .

This is a collection attuned to the beauty of the environment, to the luxury of simplicity and natural design.
